SVD

SVD series, Stable Precision Low TC
Standard High Voltage Dividers, Probe

Calibration Grade, DC to 1MHz (75MHz), Accuracy 0.1%, DC-TC 2ppm 5ppm. 1000kVp, R-C compensation, Square Pulse, AC, Variable Pulse & Wave Shapes measurable.

3RLab produces SVD-series High Voltage Ultra Stable Precision Low TC
High Accuracy Dividers & Probes for High Voltage ; Square Pulse, DC, AC, Impulses of Precision Measurement Systems.

SVD series are Standard High Voltage Dividers and Probes.

SVD measures and senses pulsing, artificially modulated repetitive pulsing, various durations,
fast-rising time, Square Pulsing, DC, AC, and wide-band from DC to 1MHz.
SVD matches the oscilloscope, precision digital multi-meter.
Accuracy very special 0.01% DC, DC-TC 2ppm, DC-VC 0.005ppm typ.
Regarding Traceability, DC and AC50/60Hz calibration are available from the Korean Research Institute of Standards and Science (KRISS).
AC to 1MΩ & <150pF DM, DC to 10G-DM, DC to 10MΩ DM, Square Pulse to 1MΩ & 11pF Scope, AC to 1MΩ & 11pF Scope.

*3RLab,Inc.
The SVD-series are designed for indoor use in the air as standard. Special use is available for custom requests such as oil, outdoors, and various atmospheres. Various HV input terminals are available for convenience.
3RLab direct Mfgr of ultra Low TC ,Stable Cylindrical and Flat type HV non-inductive precision resistorss for past 21years.
SVD series put a lot of quantity of resistors sufficiently, which for long-life stability is much better than any other competitors.
3RLab, Inc. has furnished many kinds of High Voltage Impulsing test systems, DC and modulating systems, AC systems, HV Switching type Marks Generators and classical type MGs.
This allows you to test and simulate in different directions.
